## **News Release**

For Immediate Release: May 17, 2016

### **Water shutdown scheduled for Kapau Road on Wednesday, May 18**

KOLOA – The Department of Water (DOW) has scheduled a 4-hour water shutdown for customers located on Kapau Road, in Koloa, on Wednesday, May 18. Water will be turned off from 9 a.m. to 1 p.m., weather permitting, to allow the DOW to make waterline improvements to the area's water system.

The DOW is notifying affected customers door to door, today.

Affected customers are advised to take the following steps:

- Store enough water to meet your needs during the shutdown.
- Notify family, friends and neighbors that may be affected by the shutdown.
- Those with faulty water heaters should ensure that water heaters do not empty during the shutdown.
- Drive with caution and allow extra travel time while proceeding through the area.

After the repairs are completed and the water main is turned back on, air may be mixed into the water causing it to appear white or milky in color. If this occurs, water can be flushed out through an outside hose bib until the water is clear. This is normal and the air in the water will eventually dissipate.

The DOW apologizes for any inconvenience and thanks customers for their patience and cooperation while improvements are being made.
